Certification OEKO-TEX® ORGANIC COTTON

PROOF OF QUALITY ASSURANCE AND MANAGEMENT

- ☐ For **externally certified management** systems, such as ISO 9000, ISO 14000, EMAS, OEKO-TEX® STeP or SA 8000, attach a copy of the certificate.
The document should show the OEKO-TEX® production chain.
- ☐ For **in-house QMS**, attach a short description.
The following aspects should be included as a minimum:
 1. Organisation chart/list with names and responsibilities (managing director, purchasing, QM, etc.)
 2. Procedures for purchasing (suppliers), production, traceability, quality control (incoming and outgoing inspection), proper storage and labelling (of raw materials and of products covered or not covered by certification)
 3. Procedures for dealing with non-conformities and corrective actions.

Please note: Not all aspects may be applicable for trading companies.

REPRESENTATIVE SAMPLE MATERIAL

- ☐ The range of the representative samples has to cover the entire article group. The representative selection is the base for the article description of the certification scope.
- ☐ Please only send samples from current production.
- ☐ For **ginners and spinners**, sample material must be taken **during the on-site visit for laboratory testing**.
- ☐ Customs information for non-EU deliveries: Note the last section in the checklist „Material quantities“.

Information regarding material quantities and sample packaging can be found in the “Material quantities” checklist:
